Electrical Engineer

Hi, I’m
Samantha

Education

2024

BSC. ELECTRICAL ENGINEERING
Norwegian University of Science and Technology

2017 – 2020

GENERAL SCIENCE
Holy Child School

Profile

"I am an electrical engineering student at NTNU with a solid foundation in circuit design, simulation, and programming. I am skilled in simulation tools like Proteus and Multisim, as well as Python. My work experience at YunExpress Logistics has enhanced my attention to detail and efficiency in technical processes. Additionally, I have experience in graphic design and branding, which complements my technical expertise with creative problem-solving."

Work Experience

Sep 2024 – Present

Co-Founder, Gobaith

- Founded an organization focused on providing an nurturing community for children in underprivileged communities.
- Developed and implemented strategies for project management and planning educational curriculum.

Jul 2024 – Aug 2024

Warehouse Logistics Operator, YunExpress Norway

- Monitored inventory control and stock to maintain accurate records.
- Coordinated receipt, storage, and dispatch of goods while adhering to safety and quality standards.
- Implemented and optimized logistics processes to improve productivity and reduce operational costs.

Feb 2021 – Oct 2022

Graphic Designer, Bismuth Technologies

- Developed designs for various marketing materials, including banners, and social media graphics
- Collaborated with teams to create cohesive branding strategies, ensuring consistency across all visual assets.
- Utilized industry-standard software to produce high-quality graphics effectively meeting project deadlines and client specifications.
